CERTIFICATE OF PRODUCT QUALITY STANDARDS & WARRANTY

BuildPro UK hereby certifies that our premium flooring ranges are manufactured under strict ISO 9001:2015 Quality Management Systems and ISO 14001:2015 Environmental Management Systems.

All SPC and LVT products comply with BS EN 14041 (Resilient, textile and laminate floor coverings - Essential characteristics) and undergo systematic laboratory testing for dimensional stability, impact resistance, and durability.

Key Quality Performance Figures:

- Wear Layer Thickness: 0.55mm Commercial Grade, protecting against indentation, high foot traffic, and scratching.
- Dimensional Stability: Tested to EN 434, displaying shrinkage or expansion of less than 0.05% under high temperature cycles.
- Indentation Resistance: Tested to EN 433, showing residual indentation depth of less than 0.08mm.

Warranty Protection Coverage:

- Residential: Covered by a Lifetime Wear-Through Warranty against surface wearing, fade, and structural peeling.
- Commercial: Covered by a 10-Year Trade & Commercial Warranty against premature wear-through and manufacturing defects.

This certificate guarantees that the technical figures represented in the BuildPro flooring specifications match the manufacturer's certified test data in full.

Authorized Quality Inspector:

A. Harrison
